

ERC, INC

- Company:
 - Provides engineering and technical services in aerospace and defense.
 - They are headquartered in Huntsville, AL.
- Challenge:
 - “We design Telemetry Assemblies to test various flight articles for the US ARMY.”
 - “Design a Telemetry Assembly into a very complicated, cramped, part of a flight article...using SolidWorks this was fairly simple:
- SolidWorks Benefits:
 - “We save \$1,000 on average per design using SolidWorks”
 - Reduced design errors by 50%
- CIP Services:
 - “The training, so far, has been excellent...The instructor on all sessions was a SolidWorks user, who not only knew how to teach but how to use the software.”

“CIP has always been on top of any problem...our relationship is great.”

Jim Webb
Engineering Design Specialist
