VELOX CNC

Concepts In Production, LLC is proud to be a partner with VELOX CNC to help you find the right CNC machine to fit your needs. VELOX CNC offers a solid solution for your need of a quality 5'x5', 4'x4', 3'x3', 2'x2', and desktop CNC machines that will save you both time and money. Cutting faster, wasting less material, and getting the job done right the first time makes buying a VELOX CNC machine a superior investment over any other machine. VELOX CNC small desktop to 4'x4' CNC routers can be used to cut hard woods, aluminum sheets, carbon fiber, plastics, and much more. These machines have the power to rough out deep cuts on hard woods and yet still have the accuracy to cut very detailed inlay designs into mother of pearl using .010" precision cutting bits. VELOX CNC provides you a solution, not just a machine. They are a US company that has expert staff with over 8 years of CNC building experience.

Why VELOX CNC:

- Made of aircraft grade aluminum
- Proven reliability and performance
- Fully assembled and tested
- Rigid frame and supported shafts
- Recirculation bearings for long life
- Anti-backlash leadscrew nuts
- High Torque motors
- Precision ground shafts on all axis
- Greased linear bearings
- Advanced 2D and 3D control software

Why purchase a VELOX CNC machine:

- #1 in Customer Satisfaction
- Great Customer Service
- Responsive Tech Support
- Accurate and Reliable
- Robust Control Software
- Rigid Products Throughout
- True American Design
- Parts majorly made in the USA
- Assembled in the USA

VR-Series – Industrial Strength CNC Router

Cut 48"x48" comfortably or a 4'x8' sheet with a little more work. Cut 2D composite or 3D wood relief with a 4'x4' travel CNC router machine.

Sizes available range from a 1' x 1' : 14" x 14" x 8" Travel to 5' x 5' : 62" x 62" x 8" Travel

VRATC-Series – Automatic Tool Change CNC Router

This servo automatic tool change CNC router is great for R&D, education, and production. Cut 2D composite or 3D wood relief with VELOX 2' x 2', 3' x 3', 4' x 4', and 5' x 5' travel ATC CNC router machine.

CIP offers a special Bundle for Education Customers to combine the Velox CNC machine with SOLIDWORKS and CAMWorks software. The bundle includes:

- Velox CNC Machine – VR-3625 Travel 36X, 25Y, 8Z
- Aluminum T-Slot Table Top 4th Axis Rotary and Control Box for 4th Axis
- PC Controller with Mach 3 Control Software
- Tool Kit
- CIP CNC Vacuum system
- Single license of SOLIDWORKS CAD educational software
- Single license of CAMWorks educational software
- 12 months of SOLIDWORKS AND CAMWorks software Technical support
- CIP Instructional DVD with detailed Audio Visual Instruction including: Modeling, Programming Tool Paths, Milling, Nesting, Rotary Axis Indexing, Post Processing, Set Up and Machining
